SMR-800 Multi Rake Windrower

The Perfect Tool for your Skid Steer: Windrowing, Landscaping, Soil Conditioning and Sweeping

1. The rototilling action of the SMR-800 breaks lumps, roots and other debris while reclaiming rocks by forming them in uniform rows.

2. The 4" teeth give you greater ground penetration and are made of wear resistant Hardox 450.

3. The SMR-800 is chain driven to keep the hydraulic motor out of harm’s way.

4. Option for standard solid mount or floating mount that can pivot up to 20 degrees left or right, manually or hydraulically.

5. Solid mounted or hydraulic lifting 23" forklift grade tires for increased maneuvering and rugged durability.

6. High or low flow hydraulic options.

7. Sweeper options shown on back.

WORLD CLASS - BUILT TO LAST
SMR-800 Specifications

- Great for land use preparation -

Gearbox features reversible tensioner and heavy 80 chain which decreases downtime. The gear ratio has a larger bottom sprocket that increases the mechanical advantage, giving deeper ground penetration and fewer stall outs. Side plates are adjustable, removable, and reversible for varying ground applications.

- Drum angle movement 20 degrees left or right -

- Drum angle movement 20 degrees left or right -

Options:
Mount options: Standard Mount or Floating Mount, Joystick control for New Holland, Case, John Deere & Cat

- Floating Mount -

- Standard Mount Shown -

- Optional broom attachment for sweeping parking lots, roads or removing snow -

- 4” teeth made from Hardox 450 - For superior wear resistance

- Heavy duty bearings - Same bearing as used on SRW-1400
